# KANGAROO MOTHER CARE PRE-TERM WRAP.

Mamma Pod is a wrap designed to help parents provide continuous and quality skin-to-skin care, warmth and support to their pre term and low weight babies. It can be used till the baby is 2 months old or still the time babies attain 2 kgs weight.

The ergonomic wrap design keeps baby secure and safe in place with little strain on the shoulders and back of the parent. Kangaroo mother care(KMC) is associated with a 51% reduction in infant mortality when compared to incubator care, if started in the first week of birth.

\* Should be changed & washed daily.

## PRIVACY AND COMFORT

The Mumma Pod is a perfect KMC for Skin-to-Skin care of pre-term new-borns and scores over traditional usage of sheets on privacy and comfort.

It does not need an assistant and facilitates frequent removal for breastfeeding, keeping mother's comfort and privacy intact.

## SAFER BABY POSITIONING

The ergonomic wrap design keeps the baby securely in place with little strain on the shoulders and back of the parent.

It safely keeps baby in secure posture. Mothers feel relaxed and do not feel the need to hold the baby.

## BREAST FEEDING FRIENDLY

Allows movement even when worn, makes it easy for mother to breast-feed without removing the wrap. Less fatigue for back and shoulders due to wide straps on the shoulders.

## GENDER NEUTRAL

The product look is very much acceptable to wear for fathers as well. The design is such that it fits well on different body sizes and thus makes this product a unisex usable wrap.

## BREATHABLE FABRIC

The breathable fabric of The Mumma Pod makes it soft and cozy place for the baby to be in and provides the ultimate comfort for the wearer, even during long hours of usage.

## MAMMA POD FEATURES
